

Back To That Time Lyrics

Ton Draughon 1991

Livin' for the minute every day
No worries and no debts, no bills to pay
We laughed and played music with our friends
And we never thought those days would ever end

Chorus 1

Now I want to go back to that time
When my old friends were all in their prime
But the years, like the autumn leaves, keep blowin' down the line
And I want to go back to that time

Now, Daddy, he had dark hair yesterday
But now his face is wrinkled and he's gray
He sits there in his chair right by the door
But he doesn't get outside much anymore

Chorus 2

Now he wants to go back to that time
When his old friends were all in their prime
But the years, like the autumn leaves, keep blowin' down the line
And I want to go back to that time

Let's sing a song of hope for every day
A song to chase unhappiness away
A message of goodwill we'll try to send
Let's live in harmony until the end

Chorus 3

When we'll want to go back to that time
When our old friends were all in their prime
But the years, like the autumn leaves, keep blowin' down the line
And I want to go back to that time ... *Yes, we'll want ...*
